The installation link lets your clients download your app from the App Store or Google Play Store. It'll appear on their phone as "Navica Client".

See Who's Downloaded Your App

When clients install your app they'll appear as a Lead in your Contact Manager. Accept the leads to add them to your Contacts and you're ready to start collaborating and tracking their Favorites.

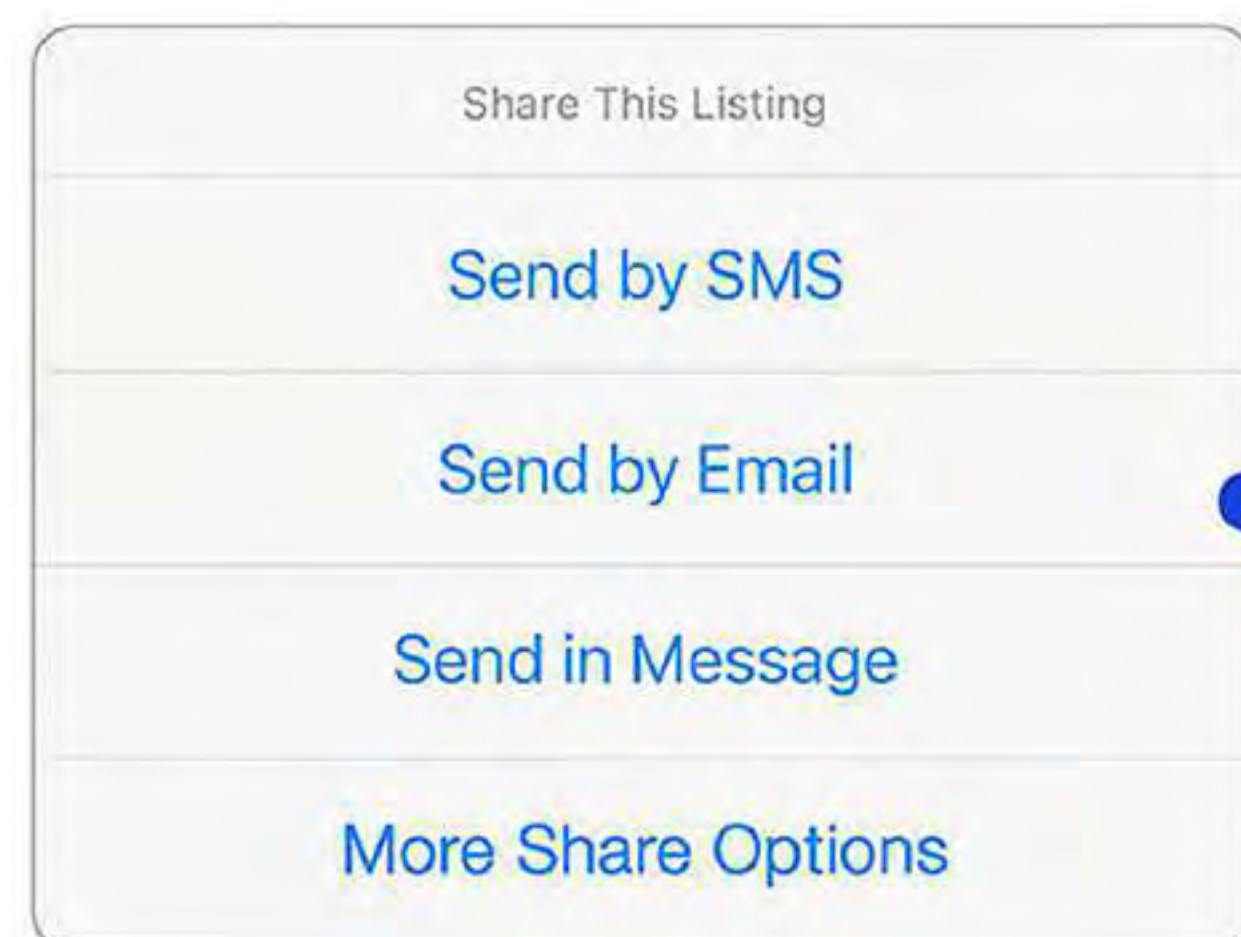

Suggest Listings To Your Clients

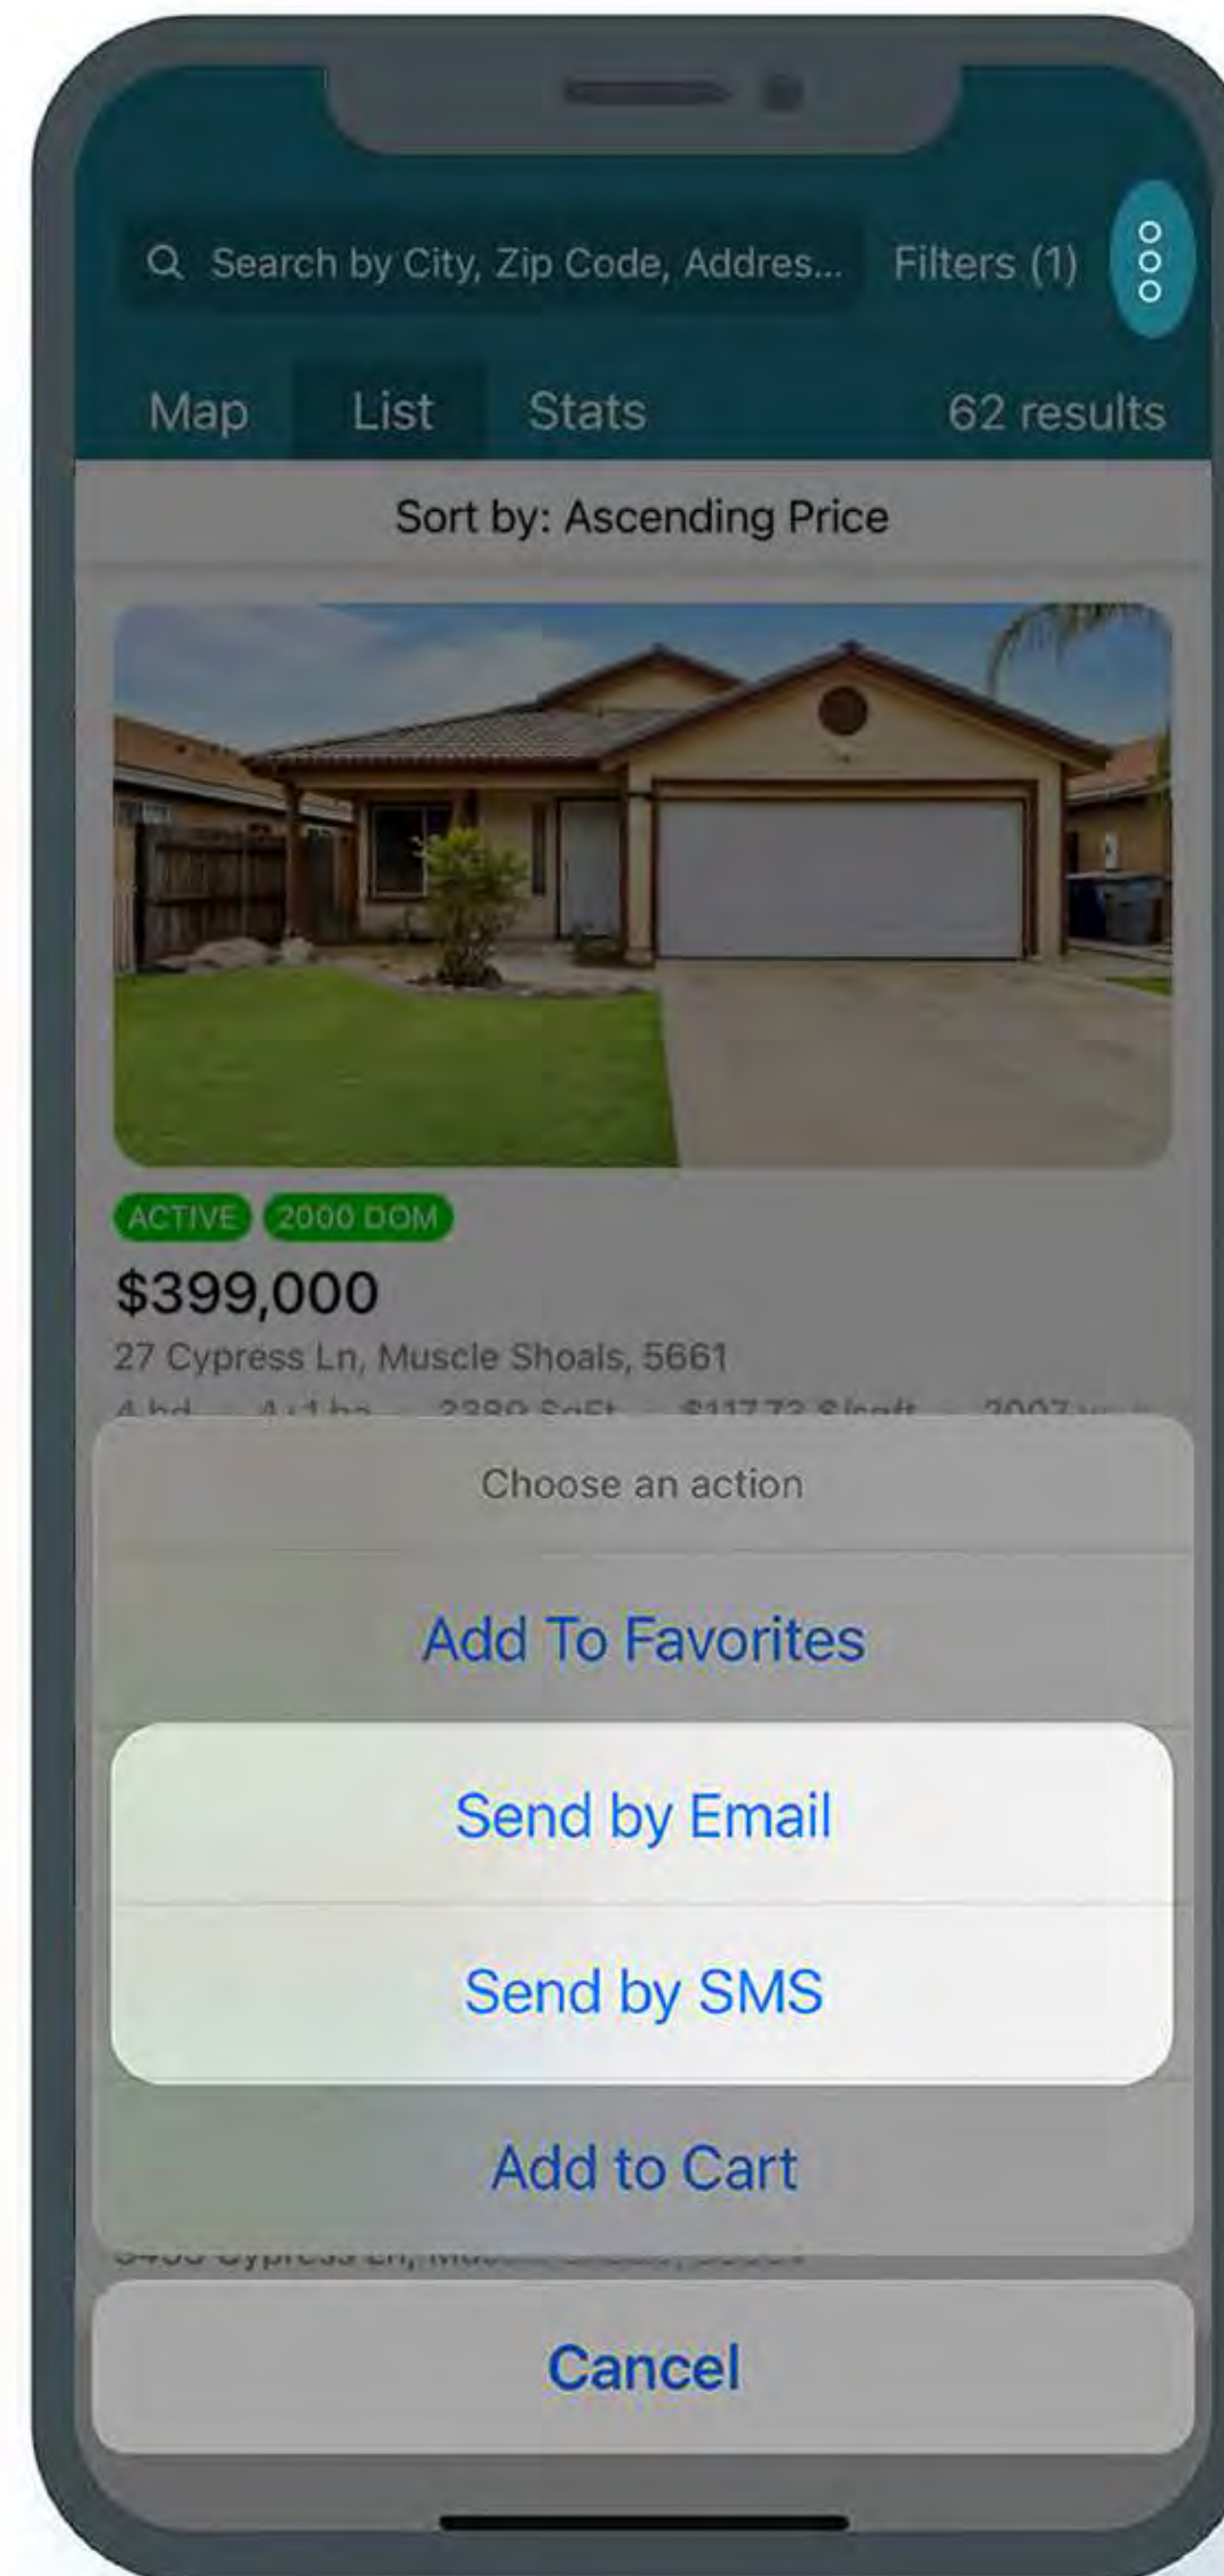

Send listings to your clients by Email or Text Message. They'll be able to review them from within your app.

When sending listings, make sure your client's contact info is in your Contact Manager. It makes it quick and easy to send emails and texts, and it ensures the listing is pushed to the branded app and tracked in the client contact record under Sent Listings.

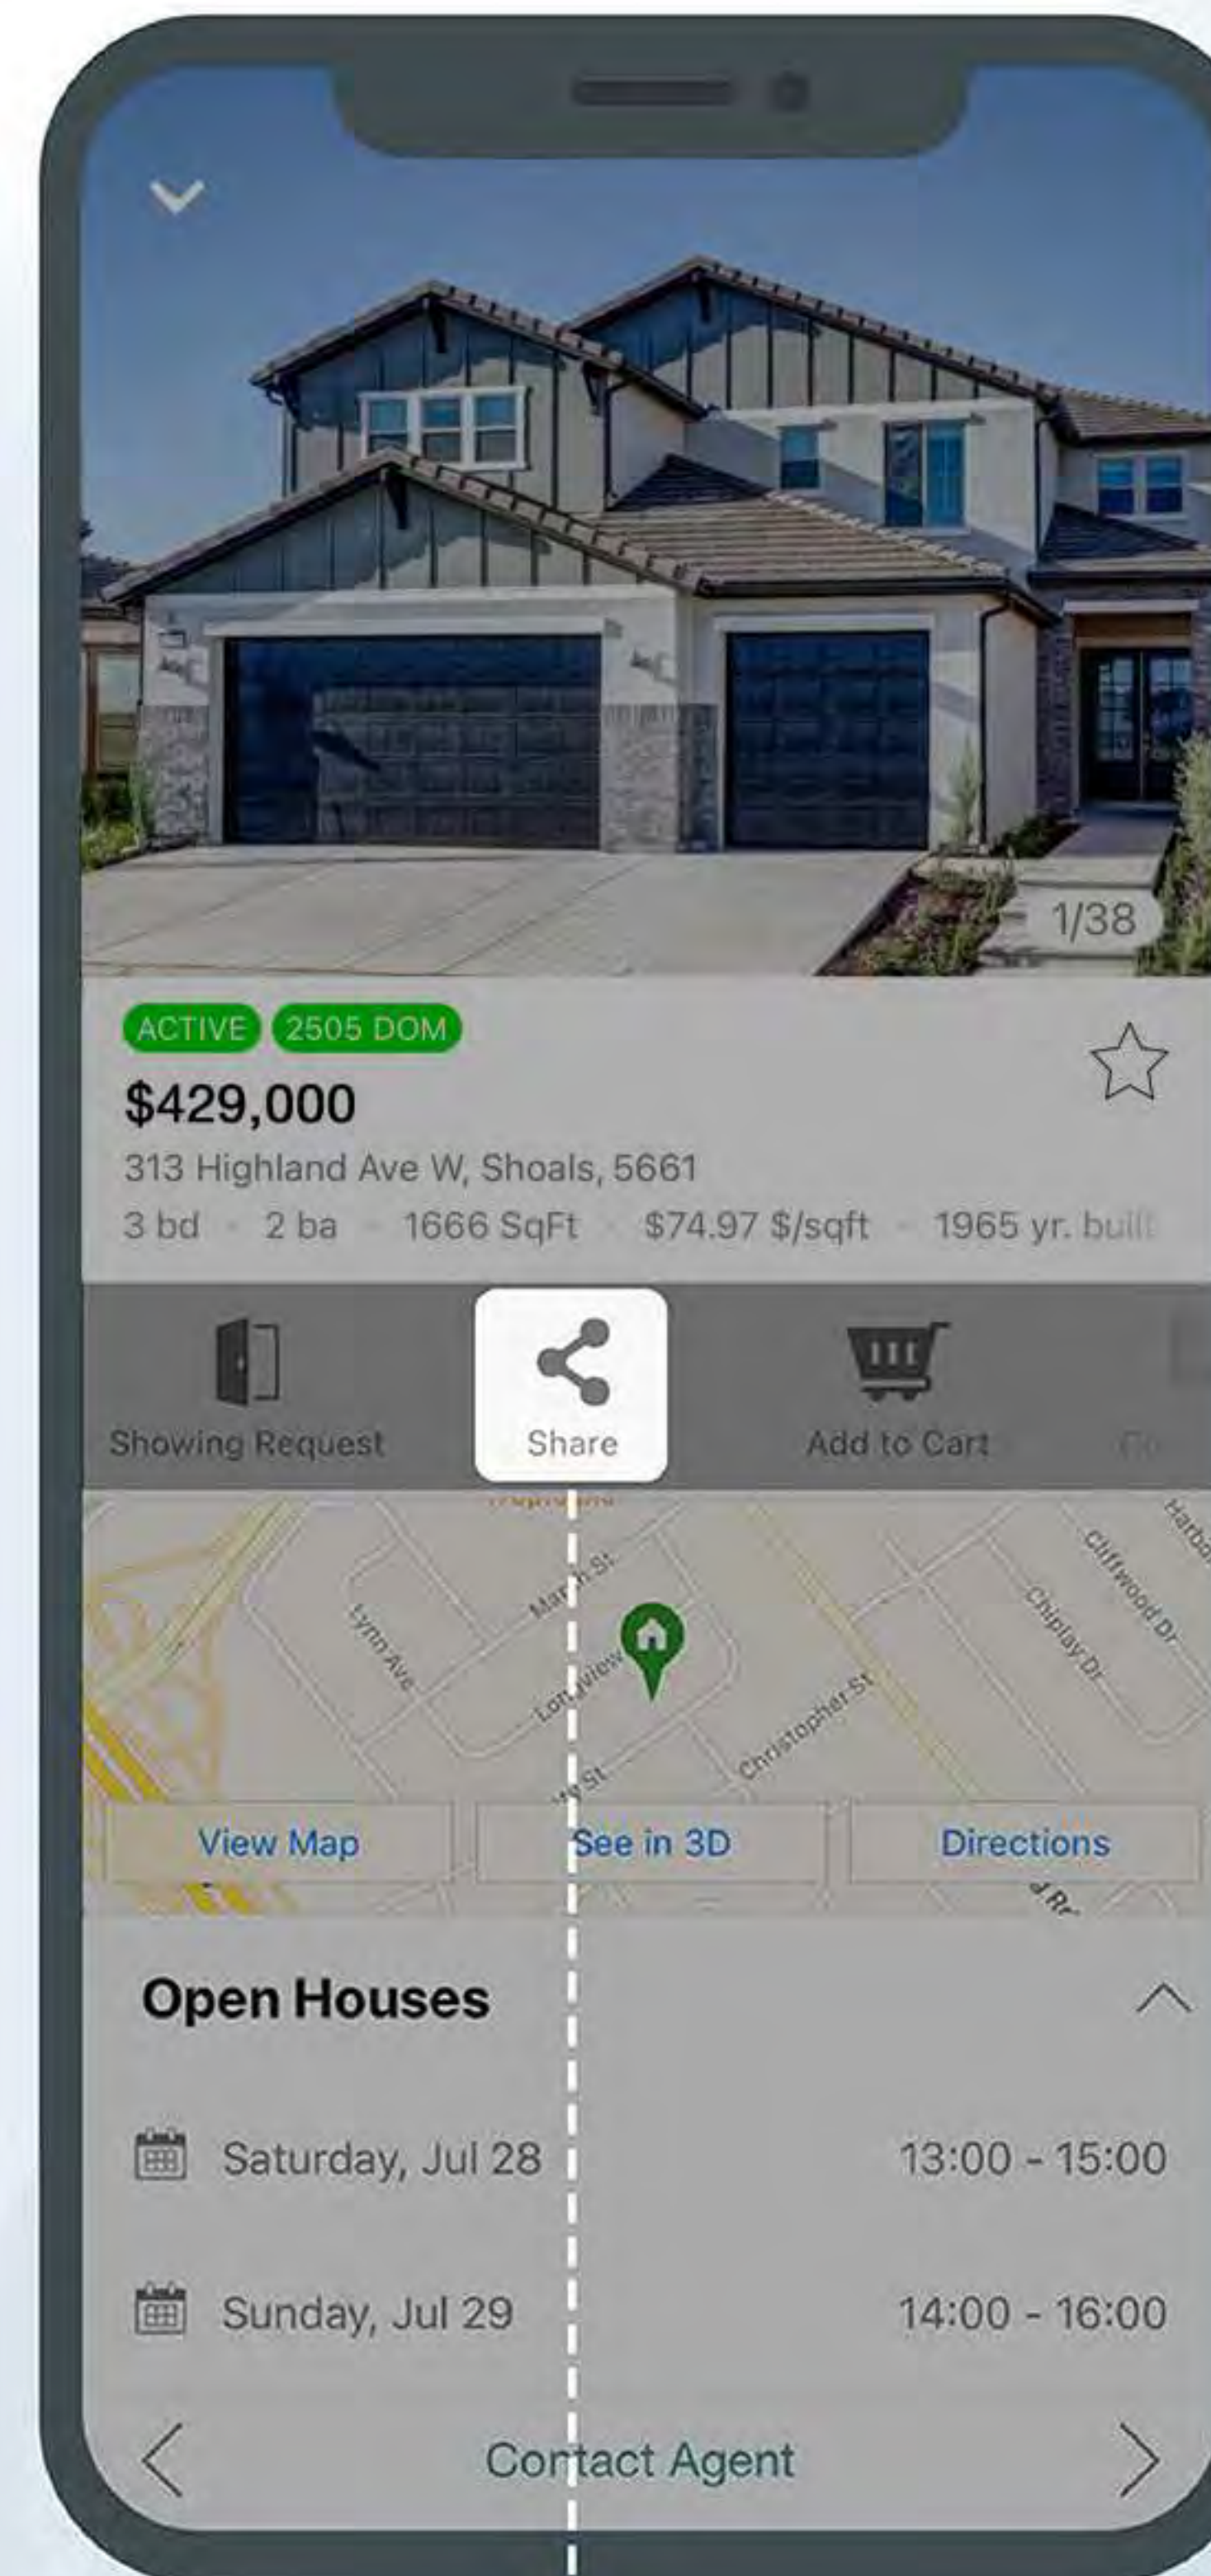

You can select your client's email by tapping the **+** button on the right side of the "Send To" field.

When you use the Messaging feature, the entire chat thread including any attached listing details will be tracked in the client record under Messages.

Easily Track All Client Activities

When your client flags a listing as a Favorite or Possibility, you'll be instantly notified. In addition, chat messages, flagged listings and suggested listings are tracked in real-time in your Navica Mobile Plus Contact Manager, keeping client communications and activities organized in one place and easy to reference!
